## **AKREDITACIJA KONGRESA KOD ZDRAVSTVENOG SAVETA SRBIJE**

### **ACCREDITATION BY HEALTH COUNCIL OF SERBIA**

15. Beogradski samit interventnih kardiologa - BASICS+” je akreditovan kao nacionalni kongres sa međunarodnim učešćem odlukom Zdravstvenog saveta Srbije broj 153-02-112/2022-01 od 07.03.2022. godine, pod ev

idencionim brojem A-1-174/22, na sledeći način:

*“15<sup>th</sup> Belgrade Summit of Interventional CardiologistS - BASICS+” is accredited as a national congress with international participation by the Serbian Health Council (decision number 153-02-112/2022-01 from 07.03.2022. under the number A-1-174/22) with the following number of CME credits:*

**Broj bodova za predavače / Lecturers – 13 bodova / CME credits**

**Broj bodova za pasivno učešće / Participants – 8 bodova / CME credits**

### **KOTIZACIJA / REGISTRATION FEE**

120 € sa PDV-om u dinarskoj protivvrednosti za lekare, 60 € sa PDV-om za medicinske sestre i tehničare u dinarskoj protivvrednosti (informacije: zivka.milicevic@gmail.com)

*120 € VAT included for physicians, 60 € VAT included for fellows, nurses and technicians in RSD value*

*(information: zivka.milicevic@gmail.com)*

**Kotizacija obuhvata:** pristup svim naučnim sesijama tokom kongresa

**Registration fee for Exhibitors includes:** Admission to all scientific session during the congress

### **ZVANIČNI JEZICI KONGRESA**

### **OFFICIAL LANGUAGES OF THE CONGRESS**

Engleski i srpski

## POZDRAVNI GOVOR

Poštovane koleginice i kolege,  
Dobro došli na petnaesti kongres interventnih kardiologa BASICS+ koji organizuje Radna grupa za kateterizaciju srca i perkutane koronarne intervencije Udruženja kardiologa Srbije.  
Posle više od dve godine borbe sa pandemijom COVID-19, BASICS+ se ponovo održava u klasičnom kongresnom formatu, sa prenosima uživo interesantnih slučajeva i predavanjima eksperata u kongresnoj sali Hotela M, a uz poštovanje svih preporučenih protivepidemijskih mera.

Okosnicu ovogodišnjeg naučnog programa BASICS+ činiće prenosi šest slučajeva iz Instituta za kardiovaskularne bolesti "Dedinje", četiri slučaja iz Instituta za kardiovaskularne bolesti Vojvodine "Sremska Kamenica" i jednog slučaja iz Kliničkog centra Niš. Mišljenja smo da će učesnici BASICS-a uživati u edukativnim intervencijama koje će izvoditi naši renomirani gosti iz celog sveta uz podršku domaćih interventnih kardiologa, a pojedine slučajeve će na najvišem nivou samostalno izvoditi naši lekari. Pored tradicionalnih koronarnih intervencija, posebno smo se potrudili da diverzifikujemo program i da uključimo strukturne intervencije (TAVI, LAAO), alkoholnu septalnu ablaciju kod hipertrofične kardiomiopatije, intrakoronarnu fiziologiju i imidžing. Jedna velika sesija biće posvećena temama koje su od interesa kardiovaskularnim sestrma i tehničarima bez čijeg nesebičnog angažovanja rezultati naših intervencija ne bi bili tako impresivni.

Ovogodišnji BASICS+ je akreditovan kod Zdravstvenog saveta Srbije i nosiće bodove kontinuirane medicinske edukacije za predavače i učesnike.

Konačno, koristimo priliku da se zahvalimo svim sponzorima, farmaceutskim kompanijama i proizvođačima i distributerima uređaja i medicinske opreme, koji prepoznaju našu potrebu za savremenom edukacijom i bez kojih održavanje ovog prestižnog i najdugovečnijeg inteventno-kardiološkog kongresa na našim prostorima ne bi bilo moguće.

Pozivamo Vas da učešćem na BASICS+ kongresu doprinesete kvalitetu ovog skupa, koji će, nadamo se, biti početak vraćanja tradicionalnim načinima stručne komunikacije.

S poštovanjem,

Dr Bratislav Milosavljević

Predsednik Radne grupe za kateterizaciju i perkutane koronarne intervencije Udruženja kardiologa Srbije

## **WELCOME NOTE**

Dear colleagues,

Welcome to the 15th BASICS+, congress of interventional cardiology organized by the Working group on catheterization and percutaneous coronary interventions of the Cardiology society of Serbia.

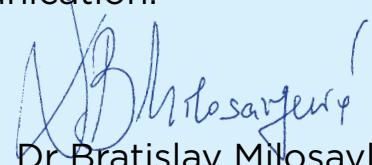

After more than two years of battling the COVID-19 pandemic, BASICS+ is being organized as the classic congress, with live broadcasts of interesting cases and lectures by experts in the Hotel M congress hall, with respect to all recommended anti-epidemic measures.

The backbone of this year's BASICS+ scientific programme will consist of six cases from the Institute for Cardiovascular Diseases "Dedinje", four cases from the Institute for Cardiovascular Diseases of Vojvodina "Sremska Kamenica", and one case from the Clinical Center Nis. We are convinced that BASICS+ participants will enjoy these educational interventions performed by our renowned guests from around the world with the support of domestic interventional cardiologists, while some cases will be performed solely by our physicians at the highest level. In addition to traditional coronary interventions, we made a special effort to diversify the program and to include structural interventions (TAVI, LAAO), alcohol septal ablation in hypertrophic cardiomyopathy, intracoronary physiology, and imaging. One separate session will be dedicated to topics of interest to cardiovascular nurses and technicians without whose selfless engagement the results of our interventions would not be so impressive. This year's BASICS+ is accredited by the Health Council of Serbia with CME credits for lecturers and participants.

Finally, we take this opportunity to thank all sponsors, pharmaceutical companies and manufacturers and distributors of devices and medical equipment, who recognize our need for modern education, and whose support was essential for the organization of this prestigious and longest-running interventional cardiology congress in the region.

We invite you to participate in the BASICS+ congress and contribute to the quality of the event, which we hope will be the beginning of a return to traditional ways of professional communication.

Respectfully,

Dr Bratislav Milosavljević

President of Working group on catheterization and percutaneous coronary interventions of the Cardiology society of Serbia

**BASICS+ IZVRŠNI ODBOR**
